	Ethical Hacking, L&T EduTech Bengaluru 9 May 2024 <ul style="list-style-type: none">I completed the course Ethical Hacking from L&T Edu Tech. This course focuses on finding and reporting vulnerability before they can be exploited by malicious attack. This course covers tools and techniques that are used by hackers and penetration testers
	Ethical Hacking Project Network Discovery and Vulnerability Assessment using Nmap Bengaluru 7 May 2024 <p>Conducted a meticulous network discovery and vulnerability assessment project utilizing advanced methodologies and the Nmap tool. We scanned the network to find out what devices were active and what services they were running. Worked with others to decide what problems were most important and suggested ways to fix them. Presented our findings in easy-to-understand reports to help make the network more secure. This project shows my ability to find and solve problems with computer networks.</p>
